Subject: Re: Kayan Frazier

Good afternoon,

Listed below is a series of events regarding Kayan Frazier:

- In early December of 2016, Mr. Frazier was seen with a PAS student outside of school; he was advised of the statute regarding inappropriate pupil contact
- In December of 2016, I met with the mother of the student to make her aware that her child was seen outside of school with Mr. Frazier; during the meeting, the mother advised me that Mr. Frazier is mentoring her child and he can maintain contact after school hours
- Although the mother authorized the contact, I advised Mr. Frazier against the outside communication and interaction due to school code
- Later in December when I learned that he maintained contact with the student against my advice, he was removed from substituting at PAS
- On February 23, 2017 it was brought to my attention that the student was sleeping in his home
- On February 24, 2017 I interviewed the student who mentioned that he's always at his house and sleeps in the bed with him; at that point, I contacted DCPD and spoke with Michelle, agent #1388, to report the incident; the agent advised me that a male child sleeping in an adult male's bed does not constitute abuse; the incident was also reported to Source4Teachers
- I met with the mother after I reported the incident; the mother stated that Mr. Frazier helps her out by babysitting
- On March 15, 2017 I was informed that Mr. Frazier was texting a different student at PAS; I contacted DCPD and spoke with Heather, agent 1354 to report the incident; the incident was also reported to Source4Teachers

Please let me know if you need additional information
